

IQaccess™

Remote Monitoring Software

FEATURES

IQaccess is available on all IQeye PRO LINE cameras.

- Field upgradeable
- Up to 8 local or remote users
- Free downloadable client software
- "After Hours" scheduling
- Password Protected
- Triggered by external device or on-camera motion detection
- Low processing requirement
- Works seamlessly with NVRs and IQrecorder

Access Control Remote Attendant Software

IQaccess on-camera intelligent software turns any IQeye PRO LINE camera into a basic access control system or remote attendant/notification system. Whenever IQaccess is triggered, a video alert window pops up in every IQaccess enabled PC and lets the first responder open the door, activate the alarm, turn on the lights or control any other device you may have connected to your IQeye PRO LINE camera's relay output.

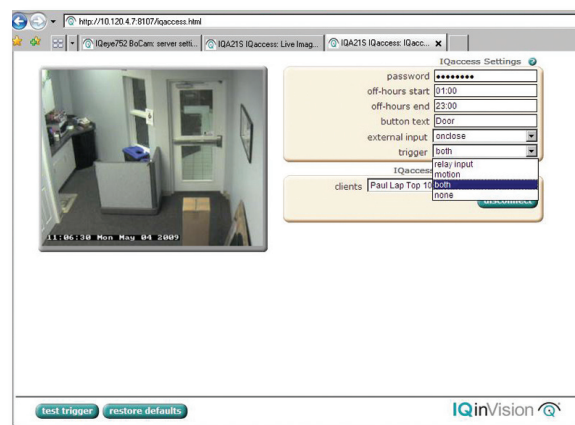

Easy Installation

IQaccess is simple to install and operate - simply upgrade your IQeye PRO LINE camera, install the client software, register the cameras and you are done! You can even have IQaccess trigger your home PC.

Most Popular Applications

IQaccess is perfect as a notification tool to alert the staff when a client or customer is waiting or is somewhere they shouldn't be. It's also a perfect tool for verifying who is at the door before letting them in. Key applications include:

- Retail Shops
- Healthcare Facilities and Campuses
- Hotel Front Desk Area
- Corporate Offices
- Educational Facilities
